CAUSE OF DEATH

Your guests arrive at the premier Symposium for Forensic Science, which is rarely open to the public. Among the featured speakers will be **Doctor Gregory Horse**, the cane-wielding curmudgeon of medicine from Harvard.

He is there with Alabama Medical examiner **Candice Scarpetty**, known for her Southern charm, and her skill with a scalpel.

There is also hunky **Doctor Luke Dire**, a man with a trail of broken hearts.

Finishing the group is **Doctor Mariesa Harrow**, brainy and plain, and **Gill Grisly** who is short in stature as well as patience.

When one of these forensic fellows faces foul play--

IT BECOMES HILARIOUS
